Children?s birthday parties

Invite your friends to the Natural History Museum for a very special birthday party!

Please note: Due to the popularity of our children?s birthday party offers we recommend to book well in advance.

Journey into the Past

Excavation Party at the Museum für Naturkunde

150 million years ago, gigantic dinosaurs roamed the Earth. Modern scientists excavated their fossilised bones and gradually put them back together, piece by piece. Now you and your friends can lead your own excavation party here at the museum. Uncover fossilised bones and examine your finds, looking for answers to the kind of questions a real palaeontologist would research: Which animal did these bones belong to? What did it eat and how did it live? What did the world of dinosaurs look like?

? Written invitation to the excavation party
? Guided tour of the dinosaurs at the museum
? Excavation of fossils under expert guidance
? Examining the finds
? Picnic party with your own drinks and cake
? Excavation certificate and a small surprise for each child

For children over 8 years.
Duration: 3 hours
Cost: ?90 per party (plus ?1.50 admission per child)
Maximum number per group: 10 children

The World of the Dinosaurs

Dino Birthday Party

Millions of years ago, giant dinosaurs roamed the Earth. But they weren?t the only animals at the time. Find out about the plants and other animals that lived alongside the dinosaurs. See what the world of the dinosaurs might have looked like.
